FRIEND BALLY:

Myself Mohan Bally born in the year 1975 Month July 13th Sunday, place Mangalore South Canara district. The wonderful place, with seashore,harbour,beautiful temples,hill stations,rivers,ghat sections and many. I born in Ladic ocean Hospital. Upto one year i was their only, afterwards my father brought me to bangalore. My grandmother , she likes me verymuch and she told my father to live him here only but, my father was Not intrested. And we came to bangalore , my father on that time is doing two jobs , one is government employee in Victoria Hospital as FDC (first div clark) We are lived in small house after death of my grand's My father purchased another house. It was of one room,hall,kitchen,bathroom. We havegiven rented house. When i was one and half year old boy , i will ill vomiting, lose motion was terrible , i think thats my second birth in my life.

My elder thought that it was because of god only. They had taken me to village and perform pooja. But its not stop. Then my father , scold them and took me to hospital and small operation was done to my leg, doctor remove a nerve which may be the reason for what that happen to me.

I joined School when i was 3 year old to nursery. CHILD DEVELOPMENT INSTITUTE which is near by to my house around 700mts walk. This is how my school days start. My mother will say always that , me fond of School. I was not that much of intelligent in the school. Me the average student in my school life. I like drawing,painting. I regularly writing the drawings. In my school educational life only in drawing , i get good marks (A grade). I like cricket very much, me very fond of cricket , I played lot of cricket in my life. I use to play cricket regularly. Me the alrounder , bowling, batting both i use to play.

In my cricket life i got award as best bowler. Nowadays , i could'nt able to play cricket much. I stop to play cricket,bcoz my work is busy(job),When i was in primary my principal usually called my gowda. Bcoz my family name was VOKKALIGA IN THAT OTHER SUB CASTE IS GANGATKAR GOWDA. The gowdas family, they were rulers in village. With big family lot acres of fields, with lots of money. This habit That had been from the ancestors. In village they were overarmed the poors. Nowadays their is no such rulers. In india it is runs everywhere , even today also such peoples are their, who suffers from these peoples. Example in north India, Bihar, Rajasthan, and some places in south India, Hyderabad , Karnataka, Kerala. But now days no one is like that bcoz the backward peoples are now improving in every field, they are coming forward But in early days in india it was not possible, now the people are realising and they do what they wanna be. But in some places in bihar , ruling peoples were rich only. The poor people were suffering lot .

I think iam boring with this. Plz dont mistake me bcoz i used To tell all these , what had been happening in this world. Lets come to my school days, Upto 7th std i was studied in child development school , co education school. I was enjoyed lot in school and i always to be. Then i passed in FIRST CLASS AND I JOINED 8TH STD TO BANGALORE HIGHER PRIMARY SCHOOL, the school was near by to my house, walkable distance. I studied for three years up to metriculation(10th std). Their also i met several good friends. I love friends very much , i think this is gods gift to me that i easily believe in friendship. Their also i regulary played cricket, football,table tennis. Among the friends i met, only few i like very much are Ganesh(CAstudent), ravikumar, uday, girish, manju, ravi, sudhakar(no more), Murali, deepu,bhaskar,jaiprakash and many more to tell.

From their i finished my sslc in first class. In 1990-91 i joined to one the well known college vishweshpuram college of science for ist year preuniversity. For two years i studied their and i finished my pre college .I had taken pcmb-physics, chemistry, maths, biology. I joined The National college for bsc (cbz)chemistry,botony,zoology. When i finished my pu i joined to typing class (junior) in vocation. We are 9 friends joined in the same typing institute. We go regularyly to typing. Their was the place Where i impressed with one girl called navyashree suman. She sit next to me . I dont know how i impressed with her, she was nice, good looking,and she was studying in commerce. I usually asked her books, pencils, why know bcoz i want to talk with her. She was the first and the last girl i loved. I proposed by giving greetings in that, i expressed all my inner feelings, she take that and run away. I dont what happend to her, she dint responded. I think its her childishness. After some days we went a trip was arranged in the institute thier we meet again ,their she told me , that, mohan ur nice guy, good,then i come to know that she had mistaken me that, i drink,smoke . I think this regrets her. We went tour for 2 days and we talked lot and we ate lunch in the same plate. The embarrassing moment to me is this only. She was the first and last girl i loved.

I joined national college , their is the place i come to know that, love, friendship, sisters, brothers and somany things that i learn from thier. I met several friends. So many so many , my friends i come to know what is love and friendship.

First when enter to the college i met one friend prashanth very good person,good looking ,kind hearted , he was the first person (different kind of person) but he is no more. He suiceded himself in the year 2000. We dont know what happend to him. He was terribly by cutting nerves,by blade, whole body is full fo injuries. Oh god that type of suicide was first time in my life i saw. I couldnt believe. Terrible , terrible friends, i himself his body to the burning place. He was the first friend,who i met him in first day of college And i never thought that in my dream that, i carry his body i wont support him committing suicide, bcoz death is not only the solutions for life ending. I dont say iam correct

I also tried several times to commit suicide, but afterwards i realise that , in life the solvation for feelings, is not commit suicide, i was attempt several times . But my soul stopped me this is not the solvation for ur life. You have to come up in life ,come out of ur feelings and show to all whats ur inner feelings that irritating you. Always try to tell your inner feelings to ur friends or to ur closed persons. This would give u some kind of relief. Bcoz that will give u some braveness to us,give us faith in ourselves.

after that i was regularly doing that policy. I am always to be bold, st forward, open minded, i usally tell all my inner feeling,and my things. I wanna be openhearted person That i like very much bcoz with this policy could gives love,affection,friendship,good or bad things can also become a part of life, that i realised in my degree life.

Their i met several friends both girls and boy.

Umashankar, dhanraj, sridhar, raghu, brahma, yoga, omkar, sanju, Suresh, maruthi, prashant, madhu, kiran, narayan,l okesh, sri, Suresh, venkatesh, indu, roopa, usha, sunitha, amitha, smitha, Chetna,chetna b,swarna,padma,mythri,geetha, pavithra,asha, Reddy,rashmi,roopa,and many more tell ..,

Totally i enjoyed my college life with lots of happy, love and with lots of friends,lovable persons,knowing lot of things, learnig more things. Many many that was now i am getting, for my happiness i got from my college life only.

Smile never regret but it wins the people
