EVANS BASIC ENGLISH CODE

The

EVANS BASIC ENGLISH CODE

A SYSTEM of abbreviation of the English language, with a vocabulary of all the basic and most frequently used words and phrases, employing the well-known Phillips code method of abbreviation. For telegraphy (wire and radio), teletype, teletypewriter, telemeter, stenography, stenotypy, alphabetic shorthand and informal note-taking, Braille writing, and all other uses that require the rapid, accurate and economical writing and transmission of English plain text.

INTRODUCTION

THIS list of 3,848 standard English word and phrase abbreviations is the product of the scientific classification and analysis of more than twenty million words of book, magazine, newspaper, business correspondence and telegraphic communication text, over a period of several years, by a group of professionally qualified authorities.

Besides the 1,760 root forms of the Phillips code, and nearly 2,000 new words and phrases, this Code will be found to contain automatically all the nontechnical basic English words, as well as all the words, up to at least the first 1,000, in each of the several high-frequency lists compiled by Ayres, Dearborn, Dewey, Thorndyke and Lorge, and others. (See Bibliography, below.)

A few 3- and 4-letter words of high frequency that do not admit of logical abbreviation have been included, both for completeness and to show that these short words are not used as code forms for longer ones. In general (with less than twenty easily distinguished exceptions), no code form in this list represents more than one word or phrase.

A unique feature of this Code is the table of 100 most frequently used suffixes or word-endings, represented by 37 standard Code abbreviations (pages viii-ix). By means of these obvious and easily remembered forms almost any derivative in the English language can be substantially shortened, as shown in the Examples, page vi.

The author of this Code claims no originality in the method of abbreviation employed. It is the method of the well-known Phillips code, introduced in 1879 by Walter Polk Phillips, of Massachusetts (1846-1920), expert telegrapher, brilliant journalist, and able administrator, who later became general manager of United Press. For more than sixty years a working knowledge of "Phillips" has been an important qualification of all competent commercial telegraphers.

However, it is believed that through the introduction of the Key to Suffixes and the vast broadening of the list to

encompass all the basic and most frequently used words in English, the system no longer need be restricted to the transmission of "press" matter only because of its limited and specialized vocabulary, but is made of universal usefulness in the rapid, accurate, and economical handling of all manner of personal and business correspondence by keyboard or other means of transmission, as well as in rapid writing, informal or alphabetic shorthand, and note-taking, by hand or by machine.

Telegraph and wireless operators and others who now use "Phillips" regularly will find much that is new and useful, nothing that is strange, in the present enlargement. For beginners in the field of communication the mastery of this Code is almost a necessity. Workers in all lines of business, and in the professions, will find it an easy, fascinating, useful and profitable accomplishment, of lifetime value.

EXAMPLES OF THE CODE IN USE

WASHINGTON—(UP)—PRESIDENT TRUMAN RELEASED PART OF THE GOVERNMENT'S EXTRAORDINARY WARTIME POWERS TODAY BY DECLARING THE PERIOD OF HOSTILITIES ENDED AT NOON. HIS ACTION WIPED OFF THE STATUTE BOOKS IMMEDIATELY TWENTY EMERGENCY LAWS AND SET THIRTY-THREE OTHERS FOR AUTOMATIC END SIX MONTHS FROM NOW, OR LATER. ENDING AT ONCE WAS THE GOVERNMENT'S POWER TO SEIZE PRIVATELY-OWNED PLANTS AND MINES, INVOKED OFTEN DURING WARTIME LABOR DISPUTES. IN SIX MONTHS—UNLESS CONGRESS INTERVENES WITH NEW LAWS—THE GOVERNMENT MUST TURN BACK TO THE PRIVATE OWNERS THE COAL MINES IT NOW HOLDS. AFTER THAT DATE A SERIES OF EMERGENCY TAXES WILL DROP; AMONG THESE ARE EXCISE LEVIES ON LIQUORS, FURS, JEWELRY AND OTHER LUXURIES. THE LIQUOR TAX WILL DROP FROM \$9 TO \$6 THE PROOF***

FOURSCORE AND SEVEN YEARS AGO OUR FATHERS BROUGHT FORTH ON THIS CONTINENT A NEW NATION, CONCEIVED IN LIBERTY, AND DEDICATED TO THE PROPOSITION THAT ALL MEN ARE CREATED EQUAL. NOW WE ARE ENGAGED IN A GREAT CIVIL WAR, TESTING WHETHER THAT NATION, OR ANY NATION SO CONCEIVED AND SO DEDICATED, CAN LONG ENDURE. WE ARE MET ON A GREAT BATTLEFIELD OF THAT WAR. WE HAVE COME TO DEDICATE A PORTION OF THAT FIELD, AS A FINAL RESTING PLACE FOR THOSE WHO HERE GAVE THEIR LIVES THAT THAT NATION MIGHT LIVE. IT IS ALTOGETHER FITTING AND PROPER THAT WE SHOULD DO THIS. BUT, IN A LARGER SENSE, WE CANNOT DEDICATE—WE CANNOT CONSECRATE—WE CANNOT HALLOW—THIS GROUND. THE BRAVE MEN, LIVING AND DEAD, WHO STRUGGLED HERE, HAVE CONSECRATED IT, FAR ABOVE OUR POOR POWER TO ADD OR DETRACT. THE WORLD***

Dr. Godfrey Dewey has shown that nine words—the, of, and, to, a, in, that, it, is—make up more than 25% of ordinary English speech and writing. Other studies indicate that the 100 most frequently used words constitute 60%, and that a list of less than 600 words covers nearly 90% of all nontechnical material.

Beginners should start immediately using the 26 one-letter forms on page 45, together with the character &. Next, the 575 two-letter forms beginning on page 46 should be systematically studied and put to use, combining them, as may be required, with the standard word-endings shown on page viii.

No special effort need be made to memorize the 37 suffixes or word-endings; they will be picked up automatically.

NOTE: The second section of this book, starting on page 55, contains the COMPLETE CODE IN PLAIN TEXT.
