HOME ENTERTAINMENT SYSTEM

900 times more powerful than existing 16-bit consoles, the advanced technology of the Sega Saturn means that stunning 3D arcade games can now be transferred directly onto CD for home use. Massive coin-op favourites such as Daytona USA and Virtua Fighter are already available. And with over 200 software houses signed up to develop more superb action you'll soon be enjoying more 3D graphics, more digital sound and more super-fast gameplay than you can handle.

But that's not all. Because Sega Saturn is much more than just a games system - it opens up a world of entertainment opportunities. You can play your audio CDs on the Sega Saturn, Photo CDs too, and even Video CDs so you can watch the latest films.

So don't fight the system. Feel it. You should know by now... The game is never over.

# DAYTONA USA™

The stunning Sega coin-op racing game comes full throttle to the Sega Saturn. Converted by the original programming team, AM2, you'll find that all the graphical scenery and all the superb gameplay are in here - plus a whole host of brand new options to make Daytona USA even more challenging.

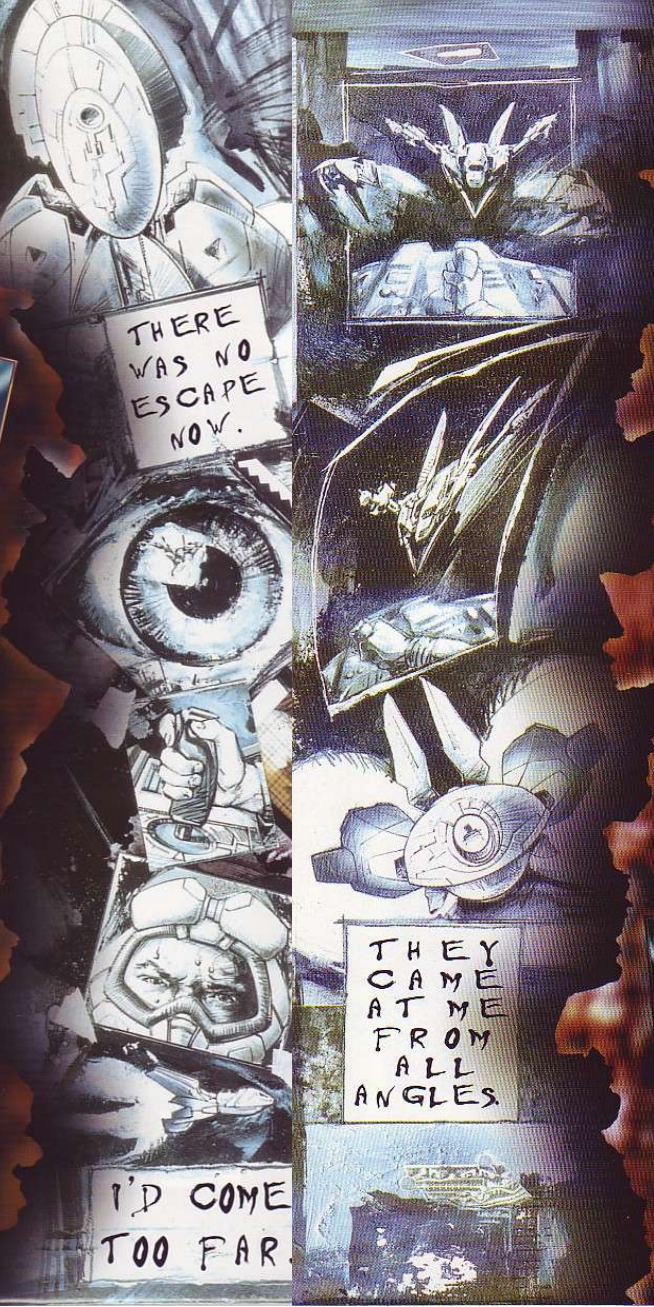

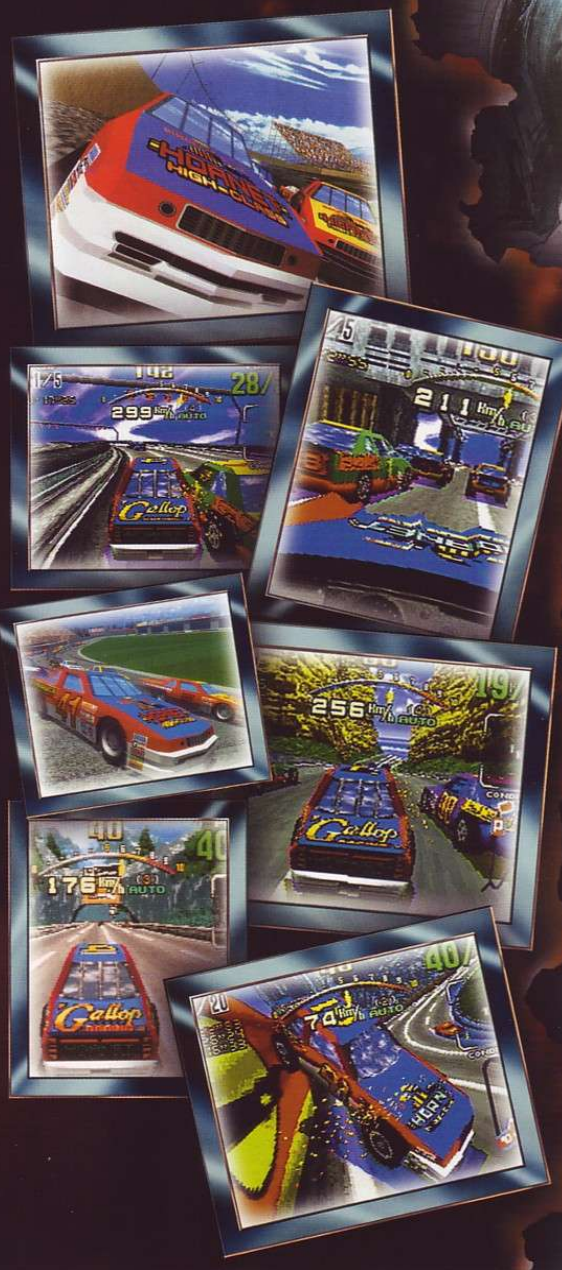

For example, you now have a choice of cars in the new Saturn Mode. There's a new Endurance Mode which boosts the number of laps you race by a factor of ten. Not to mention Mirror Image and Time Attack Modes.

With the power of the Sega Saturn, you'll find that the race is never over...

# VIRTUA FIGHTER™

Time to fight. The most successful beat 'em up arcade game is about to invade your home. Once again converted by the greatest arcade games development team in the world, AM2, Virtua Fighter on the Sega Saturn is faithful to the original coin-op in every department. All eight characters are here, including the boss character Dural. All the moves are identical to the arcade version. And every level is a virtually indistinguishable reproduction too, showing the true potential of the Sega Saturn console. Virtua Fighter. It's slick, it's fast, and it's definitely the best way to beat up on your mates.

8 LEVELS OF LONG-LASTING, STUNNING GAMEPLAY

FURIOUS TWO PLAYER ACTION

## PANZER DRAGON™

Quite simply, this game is awesome. A next generation 3D blaster with originality oozing from every pore. You are a dragon rider through seven levels of the most magnificent scenery ever to grace a home videogame. Armed with a basic laser crossbow and more powerful plasma missiles with unique 3D sights, your mission is to shoot your way past waves of unfortunate enemies, and some of the most spectacular bosses in existence. Breathtaking texture-mapped landscapes, ranging from cavernous mine workings to treacherous forests, 360° rotational viewpoints and responsive gameplay will leave you in no doubt that the Sega Saturn is definitely a force to be reckoned with.

## CLOCKWORK KNIGHT™

Now for something a little more light-hearted...you must be joking. Sega take the action adventure game to new heights of 3D complexity with Clockwork Knight - a tale of love, chivalry and some rather evil looking toys. You take the role of Pepperouchau, the Clockwork Knight, in his quest to find the singing doll of his dreams. What follows is a staggering 3D journey through the house - from nursery to attic via the kitchen sink, and even on top of a miniature train - battling hundreds of totally crazy household objects. Combining some fabulous texture-mapped scenery and traditional speedy gameplay, Clockwork Knight is truly the next level of platform game.

## SEGA INTERNATIONAL VICTORY GOAL™

The most advanced football simulation game yet. As well as cracking gameplay, you'll be amazed at the incredible speed, fluidity and 3D texture-mapped graphics. Every major international team is in here, plus a choice of different tournaments, and if it goes all the way, a penalty shoot-out feature. Just pray you don't draw Brazil...

## PEBBLE BEACH GOLF™

A new generation of golfing sport simulation. Pebble Beach Golf has perfect playability, exceptional 3D computer generated viewpoints and amazing 3D graphics. Craig Stadler the top American pro guides you through the holes as you go, so there's no excuse for hitting the rough.

THEN THEY STARTED MOVING THE GOALPOSTS.

I HAD NO CHOICE BUT TO LAND.

## PERIPHERALS

**1 VIRTUA STICK™**  
The essential accessory to get even closer to the arcade experience. Includes a metal base for greater stability, rapid-fire control and 8 buttons. Ideal for Virtua Fighting!

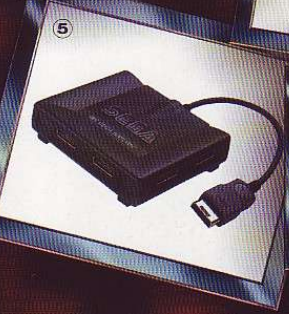

**2 ARCADE RACER™**  
Racing games like Daytona USA and Cyber Speedway deserve this impressive accessory for smoother steering and quick gear changes during gameplay. Telescopic and tilt systems also allow you to adjust the height and angle of the steering wheel.

**3 CONTROL PAD**  
Ergonomically designed with eight buttons for total user control and maximum gameplay. Also includes a generous 2.5m cable.

**4 MOUSE**  
(under development)  
Sleek and simple to use, with four buttons: A, B, C and Start. Designed for adventure games such as Myst.

**5 6-PLAYER ADAPTOR**  
Boost the number of players from two to six - competing or co-operating, in teams or individually. Ideal for using the multi-player option in games like International Victory Goal, NBA Basketball and NHL Hockey.

**6 BACK UP MEMORY**  
Provides 4 meg of back-up RAM for storing game data to supplement the Saturn's built-in memory. This accessory is essential for sports, RPGs and other games with the special "Save" feature.

## THE APPLICATIONS ARE NEVER OVER

More than just a games machine, the Sega Saturn gives you superb multimedia capabilities.

### 1 VIDEO CD CARD (MPEG standard)

Upgrade your Sega Saturn to play video-CDs. The MPEG format (accepted industry standard) has a wide range of movies and music videos, with over 100 titles currently available. Special features include slow motion, zoom (and pan), strobe, intro scan, time search, repeat play and picture-in-picture.

### 2 PHOTO CD OPERATING SYSTEM

Convert 35mm films to Photo CD at most film developers, and you can display your pictures on TV in super high resolution colour. Special features include zoom, mirror-imaging, rotation, colour filter and a fully automated presentation system.

### 3 CD-G PLAYBACK

Full CD-Graphics playback capabilities, including the new CD-EG format for up to 256 colours on screen at any one time.

### 4 AUDIO CD COMPATIBILITY

A dedicated Yamaha sound chip means the Saturn plays audio CDs with high quality digital sound, and can form an integral part of any home entertainment system. It also performs a varied selection of trick functions, and you can even change the pitch and echo of the music being played back.
