[Click Here To Register](#) (Select the Events Tab) **ADVANCED REGISTRATION REQUIRED**

Learn how to increase sales through **Arbonne Color Parties** using Krista's easy to duplicate "plug and play" system (*no makeup experience necessary?* by using her Arbonne specific DVD featuring techniques for 4 fashion-forward 'looks', templates for ordering, and detailed directions on teaching makeup application.

*"Prior to attending Krista's I sold very little Arbonne Color. I certainly didn't feel qualified to tell people how to apply these products. Along comes Krista Embry's training and DVD, and now I can bring the expert to my presentations. Since attending the training I've had 4 make-up presentations and sold approx. \$1750 in RV with just 1-5 guests in attendance!!*

*I had stopped using the DVD prior to the training because my sales were not so great. If you attend the training, be ready to take notes because she shares with you some great advice! "*

**Peggy Hinsch** Area Manager & Independent Consultant

*"As an RVP with Arbonne as well as professional make-up artist, I was incredibly impressed. She did what I haven't figured out how to do yet...teach non-make-up artists how to sell more make-up at their presentations! We are already seeing make-up sales rising as a **result.**"*

**Andrea Bouzrara**, RVP & Independent Consultant

*" Krista blew my mind with the simplicity of her makeup party technique. Anyone can do this. I also was so impressed with her extensive knowledge about so many different Arbonne products & how to incorporate different items into the Hollywood Makeup party. As a result, we have started to book more presentations and we are selling a lot more makeup!*

**Merredith Clerkin**, ERVP & Independent Consultant
