

# Class Rules and Expectations

## Rules

1. All students will treat themselves, their peers, their teacher, and the school with respect. This includes working quietly, participating in class, doing your best work, and keeping hands and feet to yourself.
2. All students will abide by the policies and rules set forth in the handbook.

### Consequences May Include:

1. Verbal Warning
2. Notification to the Parent/Guardian
3. *Writing Assignment* discussing the behavior concern to be returned to me the following day at the beginning of school. If it is not returned at the beginning of school, lunch detention will be assigned and the written assignment will be due by the end.
4. Wednesday School

### Academic Honesty Policy

When students are given individual work, they need to complete it by themselves, without the help of other students. These assignments are given so that I might gauge what concepts or ideas I need to re-teach. Therefore, I need students to demonstrate their own learning, not the learning of a "group" of students. Copying homework, "sharing" answers on quizzes and tests will result in a zero on that assignment for all parties involved. Taking another's work and representing it as your own is *dishonest* and *will not* be tolerated.
