 C. The writer has watered the banana trees.
 D. He collected old leaves and pulled off the wild grass.

The text is for questions 27 to 29.

My sister really wanted to go to the beach after having her final semester test. So as soon as the test finished, I took her to Maron Beach in Semarang.

Early in the morning, we prepared everything. Since we wanted to have a picnic, we brought some food and drink and we brought swimming suits and beach ball, too. When everything was ready, we went to the beach by motorcycle. It took about 25 minutes to get there.

Arriving at the beach, we bought tickets and went into the beach through the entrance gate. There were a lot of people at the beach. We changed our clothes and joined some people playing in the water. We screamed whenever the wave hit our body. It was really exciting. After that, we had a picnic lunch while enjoying the wide sea in front of us. In the middle of the day, it was getting hot. We decided to take a rest under a coconut tree, enjoying the beach scenery.

In the afternoon, we played beach volleyball with other visitors. When it was getting dark, we decided to go home.

It was really a wonderful day. We spent all day long at the beach. We felt tired but happy.

Sunflower is an annual plant. It usually grows, flowers, and dies in one year. It possesses a large flowering head. Sunflower stems can grow as high as 3m, and the flower head can reach 30 cm in diameter. The term "sunflower" also refers to all plants of the genus *Helianthus*, a kind of perennial. It means that they are able to grow for two seasons or more. To grow well, sunflowers need full sun. They grow best in fertile, moist, well-drained land with a lot of soil protection. In commercial planting, seeds are planted 45 cm apart and 2,5 cm deep.

The flower is native to the Americas. The evidence is that it was first planted in Mexico, by at least 2600 BC. It may have been planted a second time in the middle of Mississippi Valley, or been introduced there from Mexico at an early date, as corn was. The earliest known examples of a fully planted sunflower have been found in Tennessee and dated to around 2300 BC. Many native Americans used sunflower as the symbol of their Sun God, including the people of Aztecs and the Otomi of Mexico and the Incas in South America.

Sunflower "whole seed" (fruit) are sold as snack, after being roasted in ovens. With or without salt added. Sunflowers can be processed into a peanut butter alternative, sun butter. In Germany, sunflower is mix together with wheat flour to make *Sonnenblumenkernbrot* (literally: sunflower whole seed bread), which is quite popular in German-speaking Europe. It is also sold as food for birds and can be used directly in cooking and salads. Sunflower oil, extracted from the seeds, is used for cooking. It contains oil, so it can produce margarine and biodiesel.
